

GAZETTE CLEANING.

Quilian is back again.
The weather promises snow.
The builders are busy as bees.
First-class carpenters are in demand.
Another newspaper is talked of on the East Side.

Wallace sisters, Jennie and Maud, Tuesday night.

Wm. Malboeuf has a fine shad on exhibition at his shop.

J. J. Fitzgerald has become a member of the Knights of Honor.

Ore has been discovered near Santa Fe which is thought to contain tin.

The New Mexican suspects that Rudabaugh and Webb are hiding in Santa Fe.

The campaign for Senator will be a short one as the voting commences Monday.

Bell & Co. are continually receiving new goods. The sidewalk is always crowded.

Ladies of the Methodist church were yesterday soliciting subscriptions for the Christmas tree.

Charles Wheelock, the architect, contemplates erecting a dwelling house for himself and will commence work soon.

Mr. Pearce, driver of the Adams express wagon, has gone to El Paso, and C. H. Silvers has temporarily taken his place.

It is almost impossible to keep track of the new stores, residences and all kind of buildings which are commenced every day.

The managers of the Exchange Hotel intend to give a ball and entertainment in their new dining room when finished the first of the week.

Company H, 13th Infantry, will give a grand ball at Fort Wingate on Monday evening, Dec. 20th. Music by the 13th Infantry band.

Mendenhall, Hunter & Co. are running a branch of the water works into their West Side stable and yard, for the purpose of watering stock.

Owners of residences would very much improve the value of their property and the appearance of the town by fencing in their yards.

Wm. Malboeuf the east side harness maker is one of our best workmen. He can make thirty sets per week with side National harness machine.

The Red River Chronicle, after January 1st, will be enlarged to an eight-column folio, and be printed half in English and half in Spanish.

The ladies of the Episcopal church are preparing for a grand fair and supper to last two night, the 21st and 22d of this month. They will provide everything.

Romero's new frame building on Bridge street, next to Neil Colgan's second hand store, being put up by I. Kirkpatrick, will probably be occupied as a tin shop.

Work has been commenced on George J. Dinkel's new residence just east of the academy building. J. B. Baker & Co. have the contract for the carpenter work.

E. W. Sebben's store room, adjoining the San Miguel bank, was rented yesterday to W. H. Burnett & Co., recent arrivals, who will open out a gas-fitting and plumbing establishment.

Notice the Park Grocery local in another column. This house is now stocking up in earnest and intends not only to keep the largest but the best stock of family groceries in Las Vegas.

McConnell & Illias of the Arcade Saloon yesterday secured a very large owl from a Mexican. The bird measured over four feet from the tip of one wing to the tip of the other. It will be stuffed and put on exhibition.

Eugenio Romero has purchased the interest of M. Brunswick in the Spiegelberg property on South First Street. He has already commenced to tear down the buildings to open a street to correspond with Lincoln street on the east side. He intends in the spring to build a large brick house on this street.

The Philharmonic Society met last night at the residence of William Hixon. The rehearsal, under the direction of Prof. Boffa, was a decided success. The new music having arrived, the society will meet on Monday evening at half past seven o'clock at the residence of Mr. McNair, to fully organize. All the members are requested to be present.

Arrest Again.
Nat. C. Arnold, the "sharp" hotel manager, who got into trouble and tried to slip the country by going south, but who was captured, brought back, and held on bail for his appearance in court to-day, has again tried to leave the town behind him, as well as the gentlemen who went on his bond for \$500. He left yesterday morning on an extra freight, and at Trinidad took train No. 104 to La Junta. Telegrams giving a description of him and authorizing his arrest, were yesterday sent to Kansas City, Denver, Pueblo, La Junta, and elsewhere. A telegram was received from Ellinwood, Kansas, late last night, asking for what he was wanted, and it is supposed he has been arrested there. Arnold isn't as sharp in getting away from his pursuers as we would suppose a man would naturally be who had served four years as detective.

LOCKE & BOND.

F. D. Locke has taken in a partner, Mr. Bond in his magnificent saloon and billiard hall on Center Street. In honor of the event they will give an elegant supper to-night to which all their friends are cordially invited. The firm will be Locke & Bond.

A PIONEER'S SUCCESS.

A Walk Through Lockhart & Co.'s Business House.

Yesterday a GAZETTE reporter chanced to drop in at the office of Lockhart & Co. in the main building on the East Side. Col. Lockhart was at his desk and received said GAZETTE man in his usually pleasant manner, and after a short chat extended an invitation to walk through his buildings. The principal building, forty feet wide by eighty feet long and two stories high, is situated at the junction of Sixth street with Center and Lincoln streets. It is the best situated for business of any place on the East Side. On the ground floor, the heavier wares, such as hardware, queensware, glass, etc., are stored; on this floor also is a large stock of wall paper, window curtains and carpets. Ascending a flight of stairs, through a perfect maze of goods of various descriptions, we came to the second floor where their large stock of fine furniture is stored. This was simply grand. All kinds of the finest furniture made were stacked up to the very ceiling. There was nothing shoddy in the stock. It was all the best in the market. After looking about for a while, we descended to the first floor, gained the street, and walked across the diamond to the

TIN SHOP AND MATTRESS FACTORY.
This is a frame building, twenty-five feet wide by sixty feet long and two stories high, facing to the west. In the first floor is the tinshop, filled with a brand new set of tinners' tools and manufactured ware. A number of men were hard at work in this department.

In the next room is the mattress factory, where all kinds of bed springs, mattresses, etc., are made. Here too, men were working as if everybody in Las Vegas were sleeping on the ground without either springs or mattresses under them. In the third and last room is to be found the paint shop and varnishing department. Here all new work is painted and varnished and also where all furniture damaged by shipment is revarnished or repainted as may be required.

Coming out of this house and crossing the diamond again we came to the large stone building of A. C. Schmidt, which is about 50 feet wide by 90 feet deep. The second story of this building the Colonel informed us, he had secured for the storage of stoves, hardware and furniture which he was unable to find room for in his other buildings. Taking an elevator, not the proverbial *aguadante*, but a real elevator we soon found ourselves on the second floor where thousands of dollars worth of goods are stored away for safe keeping.

Thus Mr. Lockhart explained his three places of business were all in close proximity and all placed on the diamond lot caused by the laying off of the town.

SAW MILLS.

This firm has two saw mills and one shingle mill in the vicinity of Hermits Peak, all of them running at full speed and employing about fifty-five men. There are also about one hundred teams engaged in hauling logs to and from these mills to Las Vegas where the in-gest lumber yard in the Territory is kept. Altogether in the city and at the mills this firm gives employment to about seventy-five men, not counting the teamsters.

The shipment of lumber to the southern portion of the Territory is constantly increasing and is rapidly growing into an immense business. Large orders for the government are also filled.

The gentlemen composing the firm of Lockhart & Co., are pioneers in Las Vegas, having come to the town before the railroad in the summer of 1879 when there was no sign of the present flourishing east side of the city of Las Vegas. In fact, they have been greatly instrumental in its upbuilding, having employed much money in the erection of new houses when times were dull and men with less courageous hearts were feeling despondent.

The success of this firm only demonstrates what tact and business energy will do in a new country and a young city which is not only endowed with fine possibilities but great probabilities.

Mineral Paints.
The manufacture of mineral paints will soon be commenced in this city. Messrs. Bennett & Potter have brought on a large amount of machinery from St. Louis for this purpose. It is said by those who have examined the matter that the best earth and rocks for the manufacture of these paints are to be found in the mountains adjacent to Las Vegas. Then why not have these things made here. The projectors of this enterprise have been very quiet about it but they mean business and will succeed.

RAILWAY REVIEW.

Four carloads of lumber and timber were shipped to Watrous yesterday for the new depot at that place.

A. C. Soule, superintendent of the material department, left yesterday for Great Bend, Kansas, to rest up and recover from his sickness.

At a recent social in Emporia, Kansas, Mr. F. Minor was voted a \$25 lantern for being the most popular A. T. & S. F. conductor.

F. J. Stewart, conductor on the Pullman car "El Paso," has resigned his position with the company. He is an old timer, having been conductor four or five years.

The Atlantic express was seven hours late yesterday. The delay was caused by one of those too utterly utter Pittsburgh engines jumping the track about two miles this side of Lamby.

Eugenio Romero will look after the interests of Don Severo Baca in the senatorial race.

WOOLEN MILL FOR LAS VEGAS.

The Kind that is Needed, and What We Will Do Towards Securing It.

Eastern parties have written to a prominent citizen of this city, offering to start a woolen mill in Las Vegas on certain terms. The parties are the owners of an extensive mill at Leavenworth, Kansas, and offer to transfer the machinery, valued at \$75,000, to Las Vegas if our citizens will form a stock company with enough capital (\$50,000) to erect buildings, buy up and carry a stock of wool, etc.

The mill which the parties own has been established for a number of years and the machinery is therefore of old design and much worn. The machinery is also extensive, being adapted to the manufacture of all kinds of goods requiring fine wool. All, except such as could be used in the manufacture of blankets, carpets and coarse goods, would be of no use in New Mexico, as our wool product is all of a low grade. All that is shipped east is mostly used in the manufacture of blankets and carpets. What is wanted here is strictly new and first class machinery, adapted to the exclusive manufacture of blankets and carpets, in which any of the wool raised in New Mexico can be used. To any experienced and competent person desiring to establish such a manufactory the prominent business men and capitalists of Las Vegas will give their most hearty support.

Twenty thousand bales of blankets, of fifty pairs to the bale, can be sold here annually, our largest and most experienced merchants say. The wool can be procured in unlimited quantities, direct from the consumer, and the freight and commission about six cents per pound, which is added to all wool shipped east, would be saved. The water works, which will be completed in a few weeks, will furnish the very best of water for dyeing purposes. It is hoped that the matter will be agitated until it is brought to a successful termination. The subject is an important one, and means volumes for Las Vegas.
